

## Ben-e-lect Affinity Group Health Program

In 2010, the San Bruno Chamber of Commerce announced the implementation of the Chamber Affinity Group Health Program. The Chamber teamed with Ben-e-lect, a Third Party Administrator of Group Health plans, to deliver “Employer Driven Health Plans”. These plans work with all the major carriers, and can provide average savings of up to 30%, without a reduction in benefits.

Some examples of client savings participating in this program are:

### Client A

10 employees - saved \$33,707 the first year. The premium had been \$89,976 and is now \$56,268, a savings of 37%.

### Client B

21 employees - saved \$22,579 the first year. The premium had been \$131,872 and is now \$109,291, a savings of 17%.

These clients wanted to expand Group Health coverage to their valued employees and took advantage of Ben-e-lect’s expertise to structure a rich package of benefits, at an affordable price. If your business is interested in comparing your bill to one using this strategy please call the Chamber office.
